CALL FOR PAPERS

UAS 2016 — THE SYMPOSIUM ON PRODUCTION RESEARCH WITH INTERNATIONAL PARTICIPATION — "Production in Industry 4.0" — 12-14 October 2016, İstanbul

SPECIAL ISSUE OF
INTERNATIONAL JOURNAL OF INFORMATION SYSTEMS IN THE SERVICE SECTOR

The International Journal of Information Systems in the Service Sector (IJISSS) examines current, state-of-the-art research in the area of service sectors and their interactions, linkages, applications, and support using information systems. This fully refereed journal encompasses theoretical, analytical, and empirical research, as well as comprehensive reviews of relevant research, technical reports, book reviews, and case studies of effective applications in this area. The use of new theories, technologies, models, methods, techniques, and principles are emphasized.

Mission :

The International Journal of Information Systems in the Service Sector (IJISSS) provides a significant channel for practitioners and researchers (from both public and private areas of the service sector), software developers, and vendors to contribute and circulate ground-breaking work and shape future directions for research. IJISSS assists industrial professionals in applying various advanced information technologies. It explains the relationship between the advancement of the service sector and the evolution of information systems.
