

## CALL FOR PAPERS

### **SPECIAL ISSUE OF INTERNATIONAL JOURNAL OF INFORMATION TECHNOLOGY PROJECT MANAGEMENT**

International Journal of Information Technology Project Management examines current, state-of-the-art research in the areas of information technology project management, and the interactions, linkages, applications, and support of project management using information systems. The journal encompasses theoretical, analytical, or empirical research, comprehensive reviews of relevant research, technical reports, book reviews, and also case studies of effective applications in this area. The use of new frameworks, principles, technologies, methods, and techniques are emphasized.

#### **Mission:**

The primary objective of the International Journal of Information Technology Project Management (IJITPM) is to provide a forum for practitioners and researchers from both public and private sectors of project management professionals, along with information systems researchers, software developers and vendors, to contribute and to circulate ground-breaking work, and to shape future directions for research, as well as to help project leaders and managers to apply various advanced techniques in information systems. It encourages discussions on how the various information systems can improve the project management as well as how the advance in project management can affect the growth of information systems.

#### **IJITPM is Indexed and Abstracted in:**

ACM Digital Library, Bacon's Media Directory, Cabell's Directories, DBLP, Google Scholar, INSPEC, Journal TOCs, Library & Information Science Abstracts (LISA), MediaFinder, The Standard Periodical Directory, Ulrich's Periodicals Directory
